-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Double Patenting

1. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

2. Claims 1 – 26 and 41 – 51 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1 – 26 and 34 – 44 of prior U.S. Patent No. 6,625,357. This is a double patenting rejection. Present claims 1 – 26 are identical to claims 1 – 26 of the Patent, respectively. Present claims 41 – 51 are identical to claims 34 – 44 of the Patent, respectively.

Allowable Subject Matter

3. Claims 27 – 40 are allowed.

4. Claim 27 is evaluated as a structure and processing details carry no weight. The claim 1 structure with a light generating die with fiducials and having a multilayer structure in a mesa and having an etch stop layer included. Chirovsky et al. show a laser structure which has multilayers, fiducial surfaces and an etch stop layer but the etch stop layer is not part of the mesa and is used to remove the substrate after completion of the device. Yamada shows a multilayer laser structure with a fiducial surface but does not show an etch stop layer as part of the structure. Thus the structure is not shown in the prior art. Claim 28 – 33 depend from claim 1 and

Art Unit: 2814

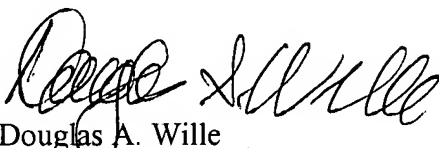

are allowable for the same reason. Claims 34 – 40 are method claims which depend from claim 1 and since the structure of claim 1 is allowable the method of forming the structure is allowable.
